The average starting salary for MAc graduates is \$52,500.

“ Truman's accounting program is phenomenal! Our professors are so personable and understanding. They also have real world experience in our field and use that to make our curriculum more meaningful. I would recommend majoring in accounting to anyone because after leaving Truman you will be well equipped with tools to excel in your future career! My favorite opportunity through Truman's accounting program is the Volunteer Income Tax Assistance program. With this program I was able to learn how to prepare, review, and assemble income tax returns for Truman students, staff and members of the Kirksville community. I was able to actually use some of my accounting knowledge, while helping others! Not to mention Truman's accounting program is one of the best in Missouri, if not the country. If you are going to be an accounting major you are definitely setting yourself up for a successful future by attending Truman! ”

– **MORGAN EBY**, Class of 2022
