NOTES:

*Students pursuing the Inter-Specialty option must speak to an Art Department advisor as they will have different requirements than those laid out here.

**Students are discouraged from taking more than 2, and never more than 3, of the six contact-hour studio or design courses in a given semester. Take either of these courses the first semester, and then take the other in the spring.

***These courses do not have pre-requisites, so students who transfer in credit for first-year foundations courses may start taking these courses in the specialties soon than suggested here.

The Dialogues curriculum requires a certain number of courses/credit hours in the following Perspectives: Social, Arts and Humanities, STEM, Communications, and Statistics. The exact number of courses a student will be required to take during their undergraduate career varies individually according to the credit transferred in.

Department Chair: Please contact the [Center for Academic Excellence](#) with any updates to the plan

above.
