

INTENT TO SINGLE SOURCE PURCHASE

The Missouri Department of Health and Senior Services, with the support of the U.S. Department of Health and Human Services, recently awarded Truman State University a contract to conduct the research, develop, and assemble Lice Treatment Kits to aid Missouri school students with head lice.

The contract requires Truman State University to purchase 3,504 units of Sklice 0.5% Ivermectin Lotion. Each unit represents a four ounce tube of the product. Truman intends to award a single feasible source purchase order to Arbor Pharmaceuticals, Inc. for the acquisition of the aforementioned medication. A single source explanation from Arbor Pharmaceuticals is outlined on the following page (page 2).

If you are aggrieved in connection with the solicitation or the award of this purchase order, you may be entitled to protest. To protest this solicitation, you must submit your protest within fifteen (15) days of the date this notice is posted. The protest must be submitted in writing to the Purchasing Buyer noted below.

This notice of intent is not a request for competitive proposals. Any responsible sources who wish to identify their interest and capability to provide the items outlined in this notification, must notify the Purchasing Buyer as part of their protest. Truman State University, at its sole discretion, will determine whether to conduct a competitive procurement or proceed with single source purchase order.

SINGLE FEASIBLE SOURCE PURCHASE

Truman State University
